Lead from Strength: Mastering the 9 Components of Extraordinary Leadership

Dwight D. Eisenhower said, “*Leadership is the art of getting someone else to do something you want done because they want to do it.*”

Being an extraordinary leader, therefore, is getting out in front of your people, aligning

defined business goals with their strengths and making sure they understand their purpose so clearly that they are naturally motivated to act to create the very success you defined. They follow willingly because they buy into the big-picture vision, they understand their value, believe what they are doing is needed, and their individual contribution makes a difference. Based on this definition, Wayne details the 9 key components of extraordinary leadership, provides powerful tools, and a simple checklist to guide you to become the extraordinary leader you are meant to be.
